ADAPTIVE TRAFFIC AI

AI IN URBAN TECH

GREEN MEANS SMART.

AI traffic signals that **see**, **think**, and **adapt**.

SEE 01

Cameras count every vehicle on every approach, in real time.

THINK 02

A deep Q-network weighs the traffic and decides every second.

ADAPT 03

Green follows real demand, not a fixed clock. Queues stay short.

2/3 BENCHMARK SCENARIOS WON	**7.3s** BEST AVERAGE DELAY
47% LESS DELAY UP TO	**5,506** PARAMETERS TRAINED DQN

TEAM SABZ

Lahore Garrison University

4th International AI Championship
